PROJECTS SHOWCASE

E-Commerce Platform

Develop a complete online shopping application with authentication, product catalog, shopping cart, payment gateway integration, and order management.

AI Chatbot with RAG

Build an intelligent chatbot powered by Retrieval-Augmented Generation (RAG) that answers questions using your own documents and data.

Data Analytics Dashboard

Create interactive business dashboards using Power BI or Tableau to visualize KPIs, sales trends, and business insights.

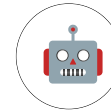

Hospital Management System

Design and develop a complete hospital management application with patient records, appointments, billing, and doctor management.

Stock Market Predictor

Build an AI/ML model to analyze historical stock data and predict future market trends using machine learning algorithms.

Multi-Agent AI System

Develop autonomous AI agents that collaborate to automate complex workflows, research tasks, and business processes.

Learn by Doing. Build by Creating.

09 PLACEMENT ROADMAP

01. Learning & Skill Development

Master industry-relevant concepts through expert-led training, practical labs, and real-world projects.

03. Technical Interview Preparation

Strengthen your coding, problem-solving, aptitude, and technical interview skills through mock interviews.

05. Portfolio & Project Showcase

Present industry-ready projects and a professional portfolio that demonstrates your skills to employers.

06. Job Applications & Referral Support

Apply to top companies with placement assistance, recruiter referrals, and career guidance.

02. Resume & LinkedIn Optimization

Create an ATS-friendly resume and optimize your LinkedIn profile to attract recruiters.

04. HR Interview & Soft Skills

Build confidence with communication training, HR interview practice, group discussions, and personality development.

06. Job Applications & Referral Support

Apply to top companies with placement assistance, recruiter referrals, and career guidance.

10 STUDENT SUCCESS JOURNEY
